

## Year 6 Home Learning Autumn 1

Each week it is important that your child completes the English and Maths tasks that embed what we have been learning in class.

It is optional if your child would like to complete any of the history tasks.

Please remember that it is still really important to encourage your child to read at home as this helps to improve their reading and writing skills.

Imagine you are a parent during the war, write an argument for and against sending your child to the countryside as an evacuee.	During the war growing vegetables was encouraged. Create a leaflet giving tips about how and when to grow vegetables.	Use the internet to find out about different air raid shelters. You could present this information using google slides.
Write a diary entry about the experience of blackout.		People were rationed food during the war. Find out about how much they were allowed. What recipes could they make with their rations?
Create a piece of art work to represent the war. This could use paint, collage or a 3D model.	Research Anne Frank. Find out 10 facts about her.	Imagine you were a child during the war, write a prayer that would represent how they may be feeling.
